Resort Wide Happenings

The Renaissance Tower just completed the renovation and reopening of their indoor hot tub area. Additionally they also renovated and reopened the volleyball courts. These are great additions for the entire resort.

The 5 Seasons board of directors has added some cool stuff to the 5 Seasons center clubhouse. Stop by and check out the new games and vending machines they have added. Additions like these help the entire resort grow in image and brand.

Finally after 7 years of a frivolous lawsuit, it is over. The 2018 lawsuit cost the resort millions of dollars, and devalued all of our properties. It also was the reason that we had a court appointed attorney that did nothing but cost us more money. It is officially over and it is a new day.
