Resort Wide Happenings

The master board recently had a fifty percent turnover. Jessica Dawson and Kim Halloran are the newest members to the master board. They have immediately made a difference. A code of conduct has now been signed and implemented for the master board. Brian Ayers has been appointed the sole point of contact for all vendors.

Tradd reality has been hired to fill the building up front and the galley area. The fourth quarter master homeowner meeting is on December 6th at 2 PM.

The 5 Seasons have started phase 2 of their renovation and construction project. Phase 1 turned out amazing, and we are all excited to see the continued beautification of that area.

The second part, the south side of the b building's curbing project, is currently underway. This project will be finished in the next couple weeks and it will complete their upgraded and recurbed parking lot.
